a product of

DUROplastic

DUROTUF POLYCARBONATE

UV PROTECTED

UV protected on both sides of the Durobar.

WEATHER RESISTANT

Suitable for all climates. Durobars are also hail resistant.

IMPACT RESISTANT

250 times tougher than glass.

EXCELLENT OPTICAL CLARITY

Durobars have excellent optical clarity and provide a 92% light transmission.

Durotuf® solid polycarbonate represents a superior glazing solution, particularly when safety or security is of vital importance.

DUROBAR

Assembly is quick and easy. Our variety of durobar sizes, together with the fastening kits are compatible with nearly any window application, making installation a breeze. Durobars are available in thicknesses of 3, 5 and 10mm.

4 standard durobar sizes available:
1025 X 32 X 5mm • 1505 X 32 X 5mm
2050 X 32 X 5mm • 3050 X 32 X 5mm

FLAT SHEETS

With a range including both standard and UV protected options, the solid polycarbonate flat sheets material may be chosen to match the exact requirements of each glazing application.

Clear / Opal / Bronze
